CODE COMBAT (CODING EVENT)

Code Combat is an exciting debugging challenge where teams of 2 members are given buggy code in C, Java, or Python. Participants must identify and fix syntax, logical, and runtime errors to produce the correct output within the given time.The event tests problem-solving skills, coding knowledge, and attention to detail in a fun and competitive environment.

Rules & Regulations

- **Team:** 2 members per team.
- **Languages:** C, Java, or Python
- **Task:** Debug the given code and produce the correct output.
- **Time:** Needed to complete the task within the given time.
- **No Internet:** Using external help is not allowed.
- **Submission:** Submit your fixed code before time ends.
- **Judging:** Correctness, errors fixed, and time taken will decide winners.
- **Follow instructions:** Organizers' decisions are final.
- **Evaluation :** Teams with maximum correct output will be awarded
